

TISH-Series HAND IMPULSE SEALERS

TEW – THE ORIGINAL HAND IMPULSE SEALER

FEATURES

- Plug-in electronic timer for variable control
- All metal construction
- No warm-up time
- Round wire option available for seal and cut

TEW impulse hand sealers seal poly bags and other thermoplastic materials quickly and efficiently without any warm-up time. Depending on the model of the machine, material up to 16" wide and 10mil total thickness can be sealed. The sealers are equipped with a plug-in electronic timer which controls the different sealing times needed for the varying thicknesses of different materials. The timer automatically beeps when the seal is done. Available in 4", 8", 12", and 16" with a 2mm or 5mm seal width. Manufacturers' kit includes two elements and two PTFE covers.

Cut and Seal Applications: Round wire heating elements are available for cut and seal applications. There is no additional charge for the round cut wire. When ordering, add the letters rnd to the model number. (Example: 12" hand sealer with round cut wire – TISH-300rnd.)

Easy to Operate: Set the timer; insert the bag between the sealing bars, then press down and release. We recommend that the user hold the sealing arm down for an additional second or two to ensure enough time for the bag to set and cool.
