

Film Dispensers FOR POLY TUBING

We carry a variety of film dispensers and rollers to meet your packaging needs

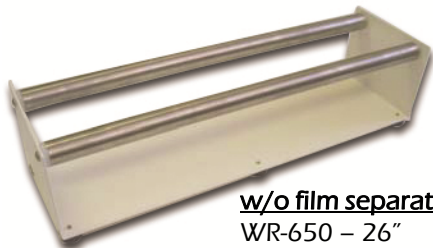

TD-300 Film Tubing Dispenser

TD-300 is a great addition to any hand sealer with cutter to hold poly tubing. The dispenser can hold tubing up to 12". The roller is manufactured with a steel frame and a silicone rubber roller.

W-Series Film Dispensers

W-Series dispensers are used with rolled films or poly tubing 10" – 40" depending on the model of the dispenser. The WRS dispensers are made to match our W-Series long hand sealers. Dispensers are steel constructed for durability and strength. Non-slip base included.

w/o film separator
 WR-650 – 26"
 WR-1060 – 42"

w/ film separator

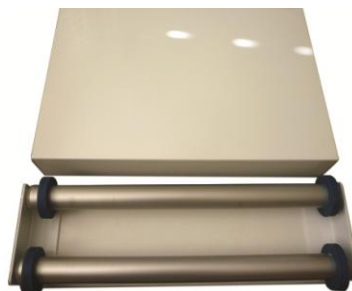

Built in fold bar (separator) to separate and keep centerfold film open when unwinding.
 W-350RS – 14"
 W-500RS – 20"

Film Rollers & Work Tables

We also carry film roller and work tables for our 8" and 12" hand sealers for easy packaging. Rollers come with a non-slip base.

FRW-200 – 8"

KF-210HC-FRW
 (ideal for KF-210HC sealer but can be used with any 8" hand sealer)
