

I-Bar Sealers

w/ & w/o cutter

W-Series I-Bar Sealers are ivory in color and are available in 14", 20", 26", 30", and 35" with a ROUND heating element for cut and seal applications. An optional 2.7mm heating element is available. The sealer is equipped with a film roller, film separator, heat gun holder, and a power outlet. The entire unit is steel constructed (including the work base) for quality and durability. The manufacturer's replacement kit comes with 3 round elements.

Ideal for shrink wrap packaging as the I-Bar Sealers are accompanied with a ROUND element for cut and seal applications

W-Series I-Bar Sealers with Cutters are exactly like the W-Series Bar Sealers except the heating element is a flat 2.7mm and there is a cutter unit attached on the right side of the sealing bar. The blade cuts 0.6" from the seal. The sealers are available in 14", 20", 26", 30", and 35" with a cutting length of 13", 19", 24 1/2", 28 3/4", and 34 1/2" respectively. The manufacturer's replacement kit includes 3 flat heating elements and 1 blade. An optional round heating element for cut and seal is available.

I-bar Sealer w/ cutter has a flat element & sliding blade to make bags out of poly tubing. For shrink wrap packaging only, refer to the I-bar without the cutter above
